

BAUSIL

Acrylic water-based varnish for waterproofing Bau Resina microcement decorative system.

Description

Mat solvent free, water-repellent impregnation varnish for waterproofing and stabilizing Bau Resina microcement decorative cementitious surfaces.

Advantages

- No surface discoloration
- High substrate transpiration
- Protects the application surface from pollutants
- Easy and quick application
- High penetration, extremely hydrophobic
- Suitable for indoor and outdoor applications

Application examples

- Plastered walls
- Cementitious surfaces
- Decorative cementitious surfaces

Technical Specifications

Form: Water-based emulsion

Color: Transparent when dry

Density: ≈ 1.0 Kg/L

Substrate preparation

Provide stable surfaces, completely dry and free from shrinkage tendencies. Remove loose or detached fragments, dirt, oil, dust etc. Avoid outdoor application when rainfall is expected.

Instructions for use

Shake well before use. Apply the material using brush, roller or sponge. Make sure that the material is uniformly spread without pools of liquid. It is recommended that BAUSIL is applied in 2 coats. The second coat can be applied on top of the first one after it has soaked sufficiently before complete drying. Clean application tools with water immediately after use.

Consumption

0,2 - 0,3 Kg /m² depending on the porosity of the surface

Packaging

Plastic containers 1, 5, 20 Kg

Storage

Preferably in sheltered areas, protected, from ice, high temperature and direct sun exposure, for at least 12 months from the date of production and in the original sealed container.

Notes

Technical details, properties, recommendations and information on BAUER products are supplied in good faith. They are based on the company's research and experience, provided that they are stored and applied under normal conditions. As the method of using materials as well as project and environment conditions are beyond the control of the company in each individual application setting, the product user is held solely responsible for the result of application. No responsibility under any legitimate relationship can be substantiated against the company, based on the information set out hereunder. Product users are advised to refer to the latest revision of the technical manuals available.
